The cover crop field day was held on September 17, 2020. Jerry Ackermann welcomed attendees. A drone seeding demonstration was given by representatives of Rantizo. Jan Voit provided an overview of the grant. She also informed the group that Jeff Strock could not attend due to the University of Minnesota’s restrictions regarding COVID-19. A summary of his research to date was distributed. Jerry Ackermann gave a presentation about his experience with cover crops. Andy Nesseth, Extended Ag Services explained soil test results and herbicide considerations. Danielle Evers, Pipestone Soil and Water Conservation District spoke about the Minnesota Ag Water Quality Certification program. Jennifer Hahn, Minnesota Soil Health Coalition gave a rainfall simulator and a slump test demonstration. There were 32 people in attendance.
